

ADVANCE RELEASE

Industrial Production Statistics (IPS)
Bangladesh Bureau Of Statistics

September /2007

Issue-03

This advance release is a regular publication of Bangladesh Bureau of Statistics. This presents the data on industrial production of selected industries on monthly basis and as well as includes the indices of medium and large-scale manufacturing industries. The production index is the most important short-term business indicator, which aims to measure at a monthly frequency the ups and downs of industrial production during the long period of time. Also the timely industrial production index is one of the most important measures of economic activity. It is expected that the industrial production and indices presented in this advance release would allow identifying the turning points in economic development at an early stage.

To access the movement of industrial production data are collected from state owned manufacturing enterprises (SOEs) and major manufacturing enterprises in the private sector on monthly basis. BBS always monitor monthly production data. However, this monthly released indices are subject to revisions and the revised data are reflected in the following issues of advance release.

We shall feel our endeavors rewarded if the data and information presented in this publication seems to be useful to the policy planners, readers, researchers and concerned agencies. Suggestions and constructive comments for the improvement of this document will be gratefully acknowledged.
